Falmouth

Falmouth's natural harbour is the third largest deep-water harbour in the world, the traditional gateway to the Atlantic and one of the world's great sailing harbours. The clear water, sheltered creeks and mild temperatures of the Fal estuary provide fine natural oyster beds, sustaining the last remaining oyster fisheries still dredging under sail and oar in Europe. The town's shopping streets lie just off the waterfront and are connected by small alleyways offering tantalising glimpses of the water and link the harbour with a charming mix of shops and art galleries.
